EDUCATION

M.S., Computer Science Graduating Spring 2027
Arizona State University, Tempe, AZ

B.Tech CSE with specialization in AI and ML Apr 2025
Vellore Institute of Technology, Chennai

Junior High & High School May 2021
Sainik School Kalikiri
Relevant coursework: Military focused training; earned “A” Certificate in National Cadet Corps

TECHNICAL SKILLS

Full Stack Web Development: Next.js, Tanstack, PostgreSQL, React, tRPC, TailwindCSS, motion
Scripting: TypeScript, Python, C, C++, Java
Certifications: FCC Amateur Radio - General (KM7GKH), AWS Certified Solutions Architect (2024), The Joy of React by Josh W Comeau (2024)

PROFESSIONAL EXPERIENCE

Codedamn Private Limited, Bengaluru: Product Engineer Aug 2021 – Oct 2024

- Designing and Developing Interactive interfaces & web based IDE
- Building analytical dashboard using SQL queries on Metabase
- Developing and maintaining interactive coding environments and learning labs
- Managing platform performance and implementing UX improvements, performing Product Testing

ACADEMIC PROJECTS

Modelith, Automated Notebook evaluators and Online Notebooks (modelith.com) Sep 2024 – Apr 2025
Building an automated system to evaluate Jupyter Notebooks for Instructors taking courses in Machine Learning, Data Science, etc with core focus on automated evaluation and model pickling for custom inference based testing.

ASCEND - High Altitude Balloon Flight Aug 2025 – Present
Software Lead, architecting and building the embedded system for ASU’s ASCEND Payload based on Pi Pico 2W

SquidSat - 3U CubeSat mission with 4 Scientific Payloads Aug 2025 – Present
Working on Software for Electrical and Power System board, building a RTOS application using Zephyr for task handling and Inter-Board Communication using CAN protocol at Sun Devil Satellite Laboratory

Project GRACE - Guidance for Rocket Aviation and Control Electronics Apr 2026 – Present
Telemetry & Data Acquisition Lead, Ground Station Lead, designing, assembling PCBs and Firmware for the Telemetry system based on ESP P4 & C6

AWARDS

2nd Place at Webverse Hackathon, Android Club Jun 2023
Built a full stack application to fullfil the PRDs presented for an LMS Platform

2nd Place at Password Hackathon, Linux Club Jun 2023
Solved a series of CTFs and a final Challenge: To obtain root access to a machine

ACTIVITIES

Aerial, Robotics and Control Systems (ARCS) Apr 2026 – Present
Executive, Treasurer, helping spread the word, finding sponsors and growing the club

- Conducted Onboarding Interviews for 80 members and helped them get started with multiple projects across the club
- Helping beginners with Sys Admin, Firmware, PCB design
- Setting up Proxmox Cluster, self-hosting tools for organization management (Authentik, Gitea, Directus, Outline, etc.)
